

ASSIGNMENT - 1

Name: K. Rupasree

Reg No: 20BCI7108

Q) Create one form with and apply css for that

Html file:

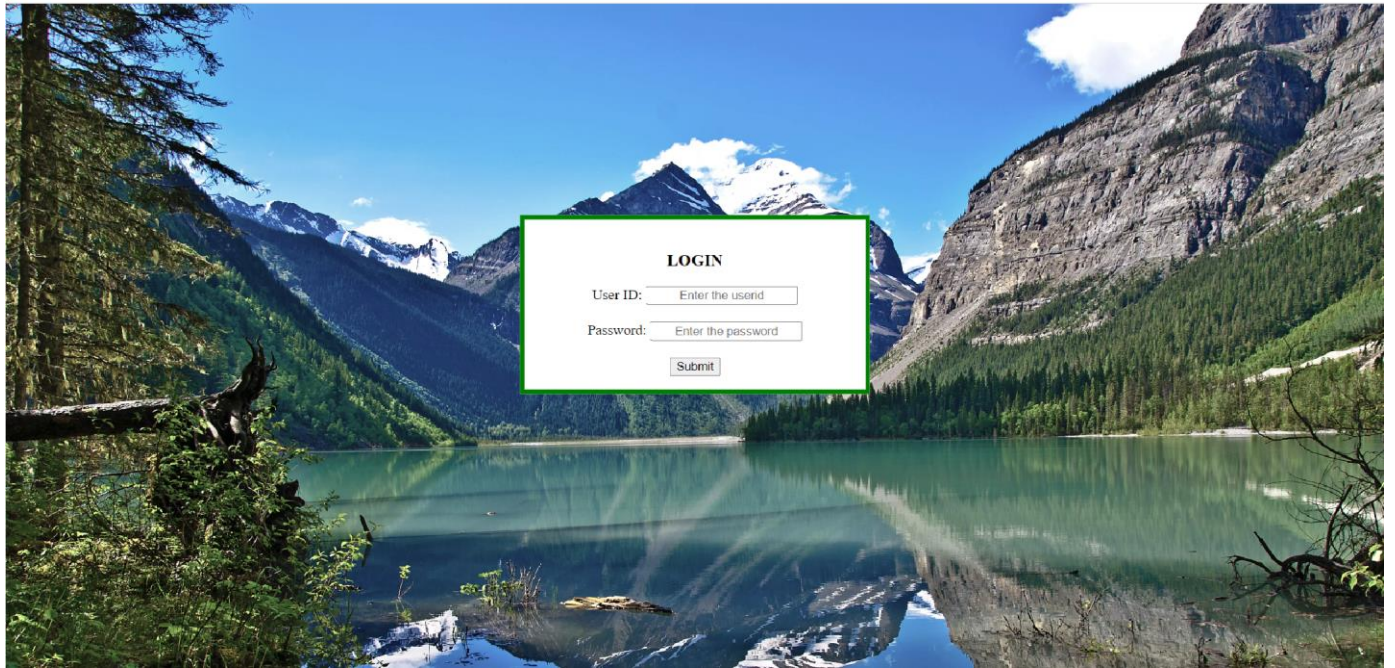

```
<!DOCTYPEhtml>
<html>
<head>
<title> First Login bro!! </title>
<link rel="stylesheet" href="style.css">
</head>
<body>
<div>
<form>
<h3 class="input heading"> LOGIN </h3>
<label for="user">User ID:</label>
<input class = "u" type = "text" id = "user" name = "user"
placeholder = "Enter the userid"><br><br>
<label for="user">Password:</label>
<input class = "p" type = "text" id = "password" name = "password"
placeholder = "Enter the password"><br><br>
<input type = "button" value = "Submit"><br>
</form>
</div>
```

```
</body>
</html>
```

Css file:

```
body {
  margin: 0; padding: 0;
  background:
  url(backgroundf.webp);
  background-size: cover;
}
div {
  text-align: center; position:
  absolute; top: 45%; left: 50%;
  background-color: white;
  transform: translate(-50%,-
  50%); width: 350px; padding:
  15px; border: 5px solid green;
}
input[type="text"] { text-
align: center;
}
```

Output:

LOGIN

User ID:

Password:
